USTRANSCOM has a well-established IG Program that allows you to obtain fair, unbiased assistance when you have a problem. This program is addressed in USTRANSCOM Policy Directive 90-1, *Functions of the Inspector General*. This policy directive describes how to use the IG process to resolve your issue. You may contact the IG at any level without notifying your chain of command. No one can prohibit your access to the IG or take actions against you for coming to the IG. However, experience has demonstrated that commanders and supervisors can resolve issues more quickly. For this reason, we encourage you to discuss your problem with your supervisor or commander before seeking assistance from the IG.
